AI Start Package: 10 Tools + 7-Day Plan

A calm, structured introduction to AI, online business and simple funnels - without hype or false promises.

1) What is this really about?

Online business does not mean doing everything at once. A simple start needs one clear topic, useful content, an email list and one sensible next step.

Affiliate marketing means recommending a relevant product or solution. If someone buys through your link, you may receive a commission.

2) The simple model

1. Choose one specific topic with a real need.
2. Publish short, useful content.
3. Send interested visitors to one clear page.
4. Invite them to join your email list.
5. Explain the process step by step and recommend relevant tools or offers.

3) 10 AI tools for the start

- **ChatGPT:** ideas, copy, structure and explanations.
- **Perplexity:** research and source overviews.
- **Canva:** simple graphics, PDFs and social posts.
- **CapCut:** short videos and basic editing.
- **Notion or Obsidian:** content planning and knowledge notes.
- **Google Trends:** checking topic interest.
- **AnswerThePublic or AlsoAsked:** finding audience questions.
- **Systeme.io:** landing page, email list and funnel.
- **Google Sheets:** simple numbers and link tracking.
- **DeepL:** checking language and translations.

4) Your 7-day plan

- **Day 1:** Choose a topic you can explain clearly.
- **Day 2:** Write down 10 audience problems or questions.
- **Day 3:** Create a simple opt-in page with a clear promise.
- **Day 4:** Write a short welcome email.
- **Day 5:** Draft 3 short content ideas with a clear call to action.
- **Day 6:** Test links, forms and email delivery.
- **Day 7:** Publish the first piece and review the first numbers.

5) Mini-checklist for your funnel

- One clearly defined audience
- One specific lead magnet
- An opt-in page with a simple form
- A thank-you or guide page
- A welcome email
- One sensible next step
- Legal notice, privacy information and clear partner disclosures

6) Common beginner mistakes

1. Too many tools instead of one simple flow.
2. Content without a clear next action.
3. Selling before building trust.
4. No email list and no follow-up.

Remember: One calm, complete flow is stronger than ten unfinished ideas.

7) Your next step: document your own start plan

The BP24 Online Business Startklar Kit guides you through twelve decisions with worksheets, 24 contextual AI prompts, quality checks and a realistic 7-day work plan.

You receive six coordinated documents, each as a print-ready PDF and an editable Word file. The current V1 toolkit is in German and costs 19 € including VAT during the test phase.

Want to implement the funnel technically? Systeme.io can connect a landing page, email list and simple automations.

Systeme.io is optional and not included in the Startklar Kit. The second button is a partner link: a paid purchase may generate a commission for BusinessProfi24 at no extra cost to you.
